

Read me first

Printing: print chart pages at 100% scale. Do not shrink to fit unless a page overflows—if it does, split across prints carefully.

Reading the chart: each square is one full cross stitch. Use the legend to match symbols to DMC colors.

Fabric: Aida is beginner-friendly. Your pattern notes the count you selected.

Needle: a size 24 tapestry needle is a common choice for 14–18 count Aida.

Disclaimer: your finished piece will reflect your fabric, floss dye lots, lighting, and stitching style. This chart is a guide, not a guarantee.
